

Apollo 8

50th Anniversary Celebration

Sunday December 2, 2018 2:00 pm - 4:00 pm

This celebration runs in conjunction with the monthly model rocket launch at the NASA Goddard Visitor Center.

Free Event

**Open to
the Public**

Featured Presenters:

Ernie Wright – Visualizer from the NASA Goddard Scientific Visualization Studio

Ernie will give us insight as to how he was able to reconstruct the sequence of events, the astronauts' actions and the spacecraft's orientation during the photography of Apollo 8's iconic Earthrise photo.

Bill Boublitz – NARHAMS' Director of Apollo Era Commemorations

Bill will present his professionally-created documentary. Experience the Apollo 8 mission from lift-off to splashdown. Bill will explain the political backdrop and the technical challenges that set stage for mankind's most epic voyage. Learn about the crew and the highlights of their mission.

This commemoration is jointly presented by the NASA Goddard Visitor Center and the NARHAMS model rocket club.
