

Looking for More from Your Rocketry Hobby?

Check out NARHAMS!

Who We Are

•We're NARHAMS, the National Association of Rocketry Headquarters Astro-Modeling Section. We've been around since 1965, and we're the oldest continuously-operating rocket club in the United States. NARHAMS was the National Association of Rocketry's Section of the Year for 1997, 1998, 1999, 2001, 2004, and 2006, and the National Championship section for 2001 and 2004.

What We Do

•NARHAMS hosts a rocket launch on the third Saturday of every month (weather permitting) at Old National Pike Park in Mount Airy, Maryland. You might see a scale model of a NASA sounding rocket, a championship-winning boost glider, or a Micro-Maxx V-2 that could fit in the palm of your hand. See www.narhams.org for a schedule and directions!

•NARHAMS also hosts several competition events during the year. We're especially well known for the East Coast Regional Meet (ECRM), which attracts many of the top rocketeers in the United States for two days of spirited competition. You'll be amazed at what's happening in competition rocketry these days, and ECRM is the place to see it!

•NARHAMS supports the oldest public demonstration launches in the United States. Join us at the Visitor's Center at Goddard Space Flight Center at 1 pm on the first Sunday of each month. Anyone can fly at our launches!

Check Out a Meeting!

•NARHAMS welcomes all prospective members to join us at a club meeting. We meet on the first Saturday of every month at the College Park Airport. We start at 5:30 with a building session or rocketry discussion until 7:30 or so, then we have our business meeting until around 9:30. See www.narhams.org for directions.

What Are You Waiting For?

•If this sounds like fun, why not become a member? Dues are only 10 cents a week, with 50 cents minimum required to join. Download a membership application from our website. Your NARHAMS membership may be the best deal in rocketry!

•See our website, www.narhams.org, for directions to our next meeting or launch. You'll always be welcome!
